My Portfolio

Eng. **Samia Sami**

CLOUD SECURITY & NETWORK ENGINEER

AWS Cloud Security

Network Engineering

CCNA Certified

SS

— GET TO KNOW ME

Introduction

Passionate **Electronics and Communications Engineering** student with hands-on expertise in **Cloud Architecture, Network Engineering**, and **Cybersecurity**. Driven by solving complex technical challenges, designing secure cloud systems, and building reliable network infrastructure.

— WHO I AM

About Me

Ambitious and results-driven Electronics and Communications Engineering student with a strong passion for designing, managing, and securing network infrastructures and cloud environments. Possessing a solid theoretical foundation combined with practical training in Network Engineering (Routing & Switching), Linux System Administration, and Cloud Computing Security (AWS). Eager to apply cloud security architecture and network solutions to optimize performance, reliability, and security in complex IT environments.

Routing & Switching

Linux Administration

AWS Security

Network Design

97%

CCNA SCORE

3+

KEY PROJECTS

WHAT I WORK WITH

Technical Skills

01

Networking & Network Security

Routing protocols, VLANs, switching, and network security practices. Topology simulation with Cisco Packet Tracer. Completed Cisco Certified Network Associate (CCNA) training at the National Telecommunication Institute (NTI) with a score of 97%.

VLANs

Routing

Packet Tracer

CCNA

02

Cloud Computing & Cloud Security (AWS)

AWS core services & security: VPC, IAM, EC2, S3, Lambda, API Gateway, DynamoDB. Currently enrolled in the Digital Egypt Pioneers Initiative (DEPI) under the AWS Security Cloud Computing track.

VPC

IAM

Lambda

DynamoDB

03

Systems Administration & Programming

Linux administration: command line interface (CLI), system configuration, and operations across Ubuntu and Kali Linux distributions.

Linux

Ubuntu

Kali Linux

CLI

SELECTED WORK

Key Projects

PROJECT 01

Smart Medical Telemetry & Patient Monitoring System

PROJECT 02

Cloud-Based Applicant Tracking System (ATS)

PROJECT 03

Enterprise Multi-Floor Network Architecture

— ACADEMIC & TRAINING BACKGROUND

Education & Professional Training

1

Bachelor of Science in Electronics & Communications Engineering

Damanhour University

2

AWS Security Cloud Computing Track

Digital Egypt Pioneers Initiative (DEPI)

3

Cisco Certified Network Associate (CCNA) Training

National Telecommunication Institute (NTI) — Score: 97%

4

Practical Field Training — Noubaria Power Station

Gained hands-on experience with sub-stations, transformers, switchgear, and power plant operations.

— BEYOND THE TECHNICAL

Soft Skills

— THANK YOU

Thank You for Your Time!

Thank you for taking the time to review my portfolio. I am eager to contribute my skills in Network & Cloud Security Engineering to innovative teams and impactful projects.
