

My Portfolio

Eng.Samia Sami

Cloud Security & Network Engineer

Introduction

"Passionate Electronics and Communications Engineering Student with hands-on expertise in Cloud Architecture, Network Engineering, and Cybersecurity. Driven by solving complex technical challenges, designing secure cloud systems, and building reliable network infrastructure."

About Me

Ambitious and results-driven Electronics and Communications Engineering student with a strong passion for designing, managing, and securing network infrastructures and cloud environments. Possessing a solid theoretical foundation combined with practical training in Network Engineering (Routing & Switching), Linux System Administration, and Cloud Computing Security (AWS). Eager to apply cloud security architecture and network solutions to optimize performance, reliability, and security in complex IT environments.

Technical Skills

01. Networking & Network Security

Routing Protocols, VLANs, Switching, Network Security Practices. Topology Simulation: Cisco Packet Tracer. Certification Training: Completed Cisco Certified Network Associate (CCNA) training at the National Telecommunication Institute (NTI) with a score of 97%.

02. Cloud Computing & Cloud Security (AWS):

AWS Core Services & Security: VPC, IAM, EC2, S3, AWS Lambda, API Gateway, DynamoDB. Currently enrolled in the Digital Egypt Pioneers Initiative (DEPI) under the AWS Security Cloud Computing track.

03. Systems Administration & Programming:

Linux Administration: Command Line Interface (CLI), system configuration, and operations across Ubuntu and Kali Linux.

Key Projects

01.

Smart Medical Telemetry & Patient Monitoring System

02.

Cloud-Based Applicant Tracking System (ATS)

03.

Enterprise Multi-Floor Network Architecture

Education & Professional Training

1. Bachelor of Science
in Electronics &
Communications
Engineering
(Damanhour University)

2. AWS Security Cloud
Computing Track
(Digital Egypt Pioneers
Initiative (DEPI))

3. Cisco Certified
Network Associate
(CCNA) Training
(National Telecommunication Institute
(NTI) — Score: 97%)

4. Practical Field Training
Noubaria Power Station

Gained hands-on experience with sub-stations,
transformers, switchgear, and power plant
operations

Soft Skills

1. [Critical Thinking & Problem Solving](#)
2. [Conflict Management & Team Collaboration](#)
3. [Technical Writing, Presentation, and Documentation](#)
4. [Adaptability & Continuous Learning](#)
5. [Time Management & Task Prioritization](#)

Contact & Links

3. GitHub: <https://github.com/samiasami0123>
4. My Num: 01002046899

Thank You for Your Time!

Thank you for taking the time to review my portfolio. I am eager to contribute my skills in Network & Cloud Security Engineering to innovative teams and impactful projects.
